

# Course Certificate

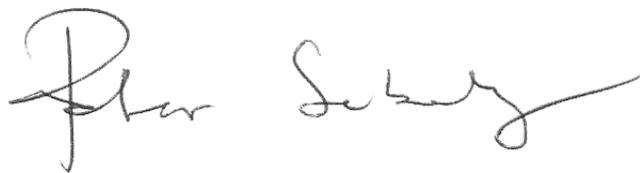

**Heena Thakkar**

(heena.thakkar@alceon.in)

has attended and completed an online course  
on Design Control, titled:

**Introduction to Design Control for Medical Devices**

On a registered final exam, the student has achieved  
a score of 97.78% on the 16th April, 2022.

---

**Peter Sebelius**  
CEO, Gantus AB

Course learning goals:

- To understand the process of developing a medical device from a design control perspective and get the "big picture".
- To understand why design control is implemented and the most common pitfalls in medical device product development and how to avoid them.
- To strengthen the student's communication skills in the area of design control.

The validity of this certificate and the qualifications of the course leader can be verified  
by contacting Gantus AB through [medicaldevicehq.com](http://medicaldevicehq.com).
